REQUEST OF THE UNITED STATES POSTAL SERVICE TO ADD GLOBAL RESELLER EXPEDITED PACKAGE CONTRACTS 4 TO THE COMPETITIVE PRODUCTS LIST AND NOTICE OF FILING A GLOBAL RESELLER EXPEDITED PACKAGE 4 NEGOTIATED SERVICE AGREEMENT

(August 8, 2014)

In accordance with 39 U.S.C. § 3642 and 39 C.F.R. § 3020.30 *et seq.*, and Order No. 1870,¹ the United States Postal Service (Postal Service) hereby requests that Global Reseller Expedited Package Contracts 4 (GREP Contracts 4), as expressed through a recently signed agreement, be added to the competitive product list within the Mail Classification Schedule (MCS).

Prices and classifications not of general applicability for Global Reseller Expedited Package (GREP) contracts were previously established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Reseller Expedited Package Contracts, issued March 24,

¹ PRC Order No. 1870, Order Adding Global Reseller Expedited Package Contracts 3 to the Competitive Product List and Approval of Designation as Baseline Agreement, Docket Nos. MC2013-64 and CP2013-84, November 7, 2013.

2010 (Governors' Decision No. 10-1).² Subsequently, the Postal Regulatory Commission (Commission) added Global Reseller Expedited Package Contracts 1 (MC2010-21 and CP2010-36) to the competitive product list, and determined that individual GREP contracts may be included as part of the GREP Contracts 1 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the previously submitted GREP contract.³ The Commission included a number of individual GREP contracts within the Global Reseller Expedited Package Contracts 1 (MC2010-21) product.⁴

In Order No. 1746, the Commission granted the Postal Service's request to add a new product identified as Global Reseller Expedited Package (GREP) Contracts 2 (MC2013-51 and CP2013-64) to the competitive product list,⁵ and determined that individual contracts may be included as part of the GREP Contracts 2 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the baseline agreement under the GREP Contracts 2 grouping, which is the contract filed in Docket Nos. MC2013-51 and CP2013-64.⁶

In addition, the Commission granted the Postal Service's request to add an additional new product identified as GREP Contracts 3 to the competitive product list,7 and determined that individual contracts may be included as part of the GREP Contracts 3 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the baseline agreement under the GERP Contracts 3 grouping, which is the contract filed in Docket Nos. MC2013-64 and CP2013-84.8

With this request, the Postal Service seeks to add the Global Reseller Expedited Package Contracts 4 product grouping to the competitive products list with the new baseline agreement filed herein.9

In support of this Request and Notice, the Postal Service is filing the following attachments:

- Attachment 1, an application for non-public treatment of materials filed under seal;

The Postal Service requests the PRC to review the extent to which MCS 2510.7 has been adequately updated, in accordance with the revised MCS 2510.7 included in Order No. 1870, in PRC, (Draft) Mail Classification Schedule, posted January 27, 2014 (with revisions through July 31, 2014), available at http://prc.gov/prc-pages/library/mail-classification-schedule/default.aspx?view=mail.

I. Background

The first GREP contract was filed on March 29, 2010, 13 and the Commission added Global Reseller Expedited Package Contracts 1 (MC2010-21 and CP2010-36) to the competitive product list in PRC Order No. 445.¹⁴ Subsequently, the Commission included a number of individual GREP contracts within the Global Reseller Expedited Package Contracts 1 (MC2010-21) product. 15

In Order No. 1746, the Commission added Global Reseller Expedited Package Contracts 2 (MC2013-51 and CP2013-64) to the competitive product list and designated the agreement that is the subject of Docket No. CP2013-64 as the baseline agreement for the GREP Contracts 2 product. 16 Furthermore, in Order No. 1870, the Commission added Global Reseller Expedited Package Contracts 3 (MC2013-64 and CP2013-84) to the competitive product list and designated the agreement that is the subject of Docket No. CP2013-84 as the baseline agreement for the GREP Contracts 3 product. 17

The Postal Service respectfully requests that the contract that is the subject of this docket be considered as the new "baseline" contract for future functional equivalency analysis concerning the Global Reseller Expedited Package Contracts product. The Postal Service suggests that the Commission list the contract that is the subject of this docket as Global Reseller Expedited Package Contracts 4 on the Competitive Product list.

II. Identification of the Additional GREP 3 Contract

The Postal Service believes that the additional GREP Contracts 4 agreement included with this filing, and its terms, fit within the proposed Mail Classification

Schedule (MCS) language set forth in Attachment 2B. This additional GREP Contracts

4 agreement is a contract by which the Postal Service provides discounted prices for

Priority Mail Express International, Priority Mail International, and/or First-Class

Package International Service, as well as prices for Priority Mail International Regional

Rate Box service, to a Sales Agent, also known as a Reseller. The Reseller is not a

mailer, but rather markets Priority Mail Express International, Priority Mail International,

First-Class Package International Service, and Priority Mail International Regional Rate

Box service to its customers.

The agreement that is the subject of this docket will serve as the successor agreement to the GREP contract filed in Docket No. CP2012-14, which is scheduled to expire on August 31, 2014.¹⁸ The agreement that is the subject of this docket is intended to go into effect on September 1, 2014 and expire on February 4, 2020. The Postal Service shall notify the customer of the effective date, within 30 days after all necessary approvals and reviews of the agreement have been obtained, unless termination of the agreement occurs sooner.

III. Filing under Part 3020, Subpart B of the Rules of Practice and Procedure

In support of the Postal Service's proposed addition of a product not of general applicability to the competitive products list that appears in the MCS, the Postal Service is providing a copy of Governors' Decisions No. 11-6, as Attachment 2A, and a revised

¹⁸ PRC Order No. 2121, Order Granting Motion for Temporary Relief, Docket No. CP2012-14, July 15, 2014.

version of the applicable sections of the MCS for GREP Contracts 4, which the Postal Service is proposing to revise, as authorized by Governors' Decision No. 11-6. (See Attachment 2B.)

In addition, in accordance with 39 C.F.R. § 3020.30, the Postal Service is providing a Statement of Supporting Justification of Frank Cebello, Executive Director, Global Business Management, as Attachment 3. This Statement is a revision of the Statements of Supporting Justification, which were included in the Postal Service's requests to add the Global Reseller Expedited Package Contracts product, GREP Contracts 2 and GREP Contracts 3 product as competitive products within the MCS.¹⁹ Mr. Cebello's statement provides support for the addition of Global Reseller Expedited Package Contracts 4 product to the competitive products list.

Under 39 U.S.C. § 3642(b), the only criteria for such review are whether the product qualifies as market dominant, whether it is excluded from the postal monopoly, and whether the proposed classification reflects certain market considerations. Each of these criteria has been previously addressed in relation to Global Reseller Expedited Package Contracts.²⁰ Furthermore, in relation to Priority Mail International Regional Rate Box, which is included in the GREP Contracts 4 agreement that is the subject of

this filing, the Postal Services does not exercise sufficient monopoly market power in the market for such boxes so that it can effectively set the price of such boxes "substantially above costs, raise prices significantly, decrease quality, or decrease output, without risk of losing a significant level of business to other firms offering similar products."²¹ In Order No. 43, the Commission assigned all negotiated service agreement (NSAs) concerning outbound international mail to the competitive category.²² All GREP Contracts agreements, regardless of whether they may be classified as a single product or individually, are NSAs concerning outbound international mail. Therefore, there is no further need to ponder whether a GREP Contracts 4 agreement, as defined by the proposed MCS language, would be market dominant or covered within the postal monopoly. The additional considerations listed in 39 U.S.C. § 3642(b)(3) are addressed by Mr. Cebello's Statement of Supporting Justification. Because all of section 3642's criteria for classification have been met, the Postal Service respectfully urges the Commission to act promptly by adding this product to the competitive products list as requested.

IV. Application for Non-Public Treatment

The Postal Service maintains that certain portions of Governors' Decision No. 11-6, the certified statement required by 39 C.F.R. § 3015.5(c)(2), the GREP Contracts 4 agreement that is the subject of this docket, and the financial workpapers for the contract that is the subject of this docket should remain confidential. As Attachment 1 to this Request and Notice, the Postal Service files its application for nonpublic treatment of materials filed under seal. The application for non-public treatment attached to this

notice addresses the redactions to those materials. A full discussion of the requested elements of the application appears in Attachment 1.

Conclusion

For the reasons discussed, and based on the financial data filed under seal, the Postal Service has established that this GREP Contracts 4 agreement is in compliance with the requirements of 39 U.S.C. § 3633, and fits within the proposed, revised Mail Classification Schedule (MCS) language for GREPS Contracts included in Attachment 2B, as authorized by Governors' Decision No. 11-6. Accordingly, the Postal Service requests that GREP Contracts 4 be added to the competitive product list, that the contract included in this filing be included within the GREP Contracts 4 product, and that the contract included in this filing be considered the baseline agreement for future functional equivalency analyses for the GREP Contracts 4 product.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in these dockets. The materials pertain to a request to add Global Reseller Expedited Package Contracts 4 to the competitive products list and a notice concerning a Global Reseller Expedited Package (GREP) 4 contract. The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission. Redacted copies of the related Governors' Decision (which authorizes management to prepare any necessary product description of nonpublished competitive services, including text for inclusion in the MCS and to present such matter for review by the Commission), a certified statement required by 39 C.F.R. § 3015.5(c)(2) concerning the contract, and the contract are filed with the Notice as Attachments 2A, 2C, and 4, respectively. ¹

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to

¹ The Postal Service informed the customer prior to filing its notice that it would be seeking non-public treatment of the redacted portions of each contract. The Postal Service also informed the customer that it could file its own application for non-public treatment of these materials in accordance with 39 C.F.R. § 3007.22.

be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).² Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of this GREP Contracts 4 agreement, the Postal Service believes that the third party with a proprietary interest in the materials is the customer with whom the contract is made, and the PC Postage Provider(s) if the customer intends to use a PC Postage Provider.³ The Postal Service maintains that customer identifying information

² The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. However, other postal operators can be considered to have a proprietary interest in some rate information in the financial workpapers included with this filing. The Postal Service maintains that such information should be withheld from public disclosure. In view of the practical difficulties, the Postal Service has not undertaken to inform all affected postal operators about the nature and scope of this filing and about the ability to address any confidentiality concerns directly with the Commission as provided in 39 C.F.R. § 3007.20(b). Due to language and cultural differences as well as the sensitive nature of the Postal Service's rate relationship with the affected foreign postal operators, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices to the relevant postal operators. The Postal Service identifies as an appropriate contact person Haley Eubanks, EMS Manager, International Postal Relations. Ms. Eubanks' phone number is (202) 268-4315, and her email address is Haley.N.Eubanks@usps.gov. The Postal Service acknowledges that 39 C.F.R. § 3007.21 (c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting

should be withheld from public disclosure. Therefore, rather than identifying the customer for the contract that is the subject of this docket, the Postal Service gives notice that it has already informed the customer for the contract that is the subject of this docket, in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and the customer's ability to address its confidentiality concerns directly with the Commission. The Postal Service employee responsible for providing notice to the third party with proprietary interest in the materials filed in this docket is Ms. Kathy L. Lynch, Sales Support Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 2P021, Washington, DC 20260-4017, whose email address is kathy.l.lynch@usps.gov, and whose telephone number is 202-268-6662.

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with the Notice filed by the Postal Service in this docket, the Postal Service included a GREP contract, Governors' Decision No. 11-6, financial workpapers, and a statement certifying that the agreement should meet the requirements of 39 U.S.C. § 3633(a). These materials were filed under seal, with redacted copies filed publicly, after notice to the customer. The Postal Service maintains that the redacted portions of the GREP contract, related financial information, and identifying information concerning a GREP competitive contract customer should remain confidential.

the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's filing in the absence of actual notice might be construed as beyond the scope of the Commission's rules, the Postal Service respectfully requests a waiver that would allow it to forgo providing a notice to each postal operator, and to designate a Postal Service employee as the contact person under these circumstances, since it is impractical to communicate with dozens of operators in multiple languages about this matter.

With regard to the GREP competitive contract filed in this docket, the redactions on page 1, and to the footers of each page, Article 28, and the signature block of the contract constitute the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2).

The redactions to Articles 7, 8, 12 and 14 protect information with specific impact on the customer, including the pricing provided to the customer under the agreement, the customer's commitment to the Postal Service, penalties in the event that the customer does not achieve its postage commitment, and the relationship of this agreement to other agreements.

Governors' Decision No. 11-6, which is Attachment 2A of this filing, includes as supporting materials an Attachment A. Redactions appear on page two and in Attachment A of Governors' Decision No. 11-6. These redactions protect sensitive commercial information concerning the applicable cost-coverage.

The redactions applied to the financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the customer's mailing profile, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b). However, in a limited number of cases, narrative passages, such as words or numbers in text, were replaced with general terms describing the redacted material.

Should the Commission request that the Postal Service file cost, volume and revenue data associated with the agreement after the expiration of this agreement, the

Postal Service will redact in its public filing all of the values included that are commercially sensitive information and will also protect any customer identifying information from disclosure.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the portions of the contract that the Postal Service determined to be protected from disclosure due to their commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. First, revealing customer identifying information would enable competitors to focus marketing efforts on current postal customers which have been cultivated through the efforts and resources of the Postal Service. The Postal Service considers that it is highly probable that if this information were made public, its competitors would take immediate advantage of it. The GREP competitive contracts include a provision allowing the Reseller to terminate its contract without cause by providing at least a certain number of days' notice. Therefore, there is a substantial likelihood of the Postal Service losing customers to a competitor that targets customers of the Postal Service with lower pricing.

Other redacted information in each contract includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, and the penalty in the event the customer does not achieve the minimum revenue commitment. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practice. Competitors could use the information to assess the offers made by the Postal Service to its customers for any

possible comparative vulnerabilities and could focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, other potential customers could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The financial workpapers filed with this notice include specific information such as costs, assumptions used in pricing formulas, the formulas themselves, mailer profile information, projections of variables, contingency rates included to account for market fluctuations and the exchange risks. Similar information may be included in the cost, volume and revenue data associated with the agreement that the Commission may require the Postal Service to file after the expiration of this agreement. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing. Unlike its competitors, the Postal Service is required by the Mail Classification Schedule to demonstrate that each negotiated agreement within this group covers its attributable costs. Competitors could take advantage of the information to offer lower pricing to GREP competitive contract customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the relevant market. Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in the contract, from the information in the workpapers, or from the cost, volume and revenue data that the Commission may require the Postal Service to file after the agreement's expiration, whether additional margin for net profit exists between the contract and the contribution that GREP competitive contracts must make. From this information, each customer could attempt to negotiate ever-increasing incentives, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even customers involved in GREP competitive contracts could use the information in the workpapers, or the cost, volume and revenue data associated with the expired agreement, in an attempt to renegotiate their own rates, threatening to terminate their current agreements, although the Postal Service considers this to be less likely than the risks previously identified.

Price information in the contract, the financial spreadsheets, and any cost, volume and revenue data concerning the contract filed after the agreement's expiration consists of sensitive commercial information of the customer. Disclosure of such information could be used by competitors of the customer to assess the customer's underlying costs, and thereby develop a benchmark for the development of a competitive alternative.

(5) At least one specific hypothetical, illustrative example of each alleged harm; Identified harm: Revealing customer identifying information would enable competitors to target the customer for sales and marketing purposes.

Hypothetical: The identity of the customer in this contract is revealed to the public.

Another delivery service has an employee monitoring the filing of GREP competitive contracts and passing along the information to its sales function. The competitor's sales representatives could quickly contact the Postal Service's customer and offer the customer lower rates or other incentives to terminate its contract with the Postal Service in favor of using the competitor's services.

Identified harm: Public disclosure of negotiated terms of the agreement could be used by competitors and potential customers to the Postal Service's detriment.

Hypothetical: Customer A signs a GREP competitive contract that is filed with the Postal Regulatory Commission. At the same time, Customer B is considering signing a GREP competitive contract and has no real concern about the penalty provision, which calls for Customer B to pay up to \$10,000 in penalties if it fails to meet its minimum volume commitment before termination of the agreement. The information about Customer A's penalty provision is made public. Customer A's agreement calls for a \$5,000 maximum payment as penalty. Customer B sees the information. Customer B then insists that it will not agree to be obligated to pay any more than Customer A was obligated to pay, diminishing the Postal Service's bargaining leverage. The same rationale applies to other negotiated terms.

Identified harm: Public disclosure of the pricing included in the agreement would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: Customer A's negotiated rates are disclosed publicly on the Postal Regulatory Commission's website. Customer B sees the rates and determines that there may be some additional profit margin between the rates provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the agreement to be added to the competitive products list. Customer B, which was offered rates identical to those published in Customer A's agreement, then uses the publicly available rate information to insist that Customer B must receive lower rates than those the Postal Service has offered it, or Customer B will not use the Postal Service for its expedited package service delivery needs.

Alternatively, Customer B attempts to extract lower rates only for those destinations for which Customer B believes that the Postal Service is the low-cost provider among all service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which the Postal Service believes will still satisfy total cost coverage for the agreement. Then, the customer uses other providers for destinations that are different than those for which the customer extracted lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement, such that the Postal Service no longer meets its cost coverage requirement. Although the Postal Service could terminate the contract when the Postal Service first recognizes that the customer's practice and projected profile are at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory Commission, would be sunk costs that would have a negative impact on the GREP competitive contract product overall.

Identified harm: Public disclosure of information in the financial workpapers would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. The competing delivery service analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to meet the Postal Service's minimum statutory obligations for cost coverage and contribution to institutional costs. The competing delivery service then sets its own rates for products similar to what the Postal Service offers its GREP competitive contract customers under that threshold and markets its ability to guarantee to beat the Postal Service on price. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service out of the business-to-business and customer-to-business services markets for which the GREP competitive contract product is designed.

Identified harm: Public disclosure of information in the contract and the financial workpapers would be used by the customer's competitors to its detriment.

Hypothetical: A firm competing with the customer obtains a copy of the unredacted version of the contract and financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the prices and the workpapers to assess the customer's underlying costs, volumes, and volume distribution for the corresponding delivery products, as well as its total estimated volume. The competitor

uses that information to (i) conduct market intelligence on the customer's business practices and (ii) develop lower-cost alternatives using the customer's costs as a baseline.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for parcel and expedited services, as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof;

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.

DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED COMPETITIVE RATES (GOVERNORS' DECISION NO. 11-6)

March 22, 2011

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments, but nonetheless arise from other sources, such as the Universal Postal Convention.

Governors' Decision No. 11-6

Page 2

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established all prices that will cover costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegee(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a quarterly basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant, new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

Governors' Decision No. 11-6

Page 3

This Decision does not supersede or otherwise modify Governors' Decision Nos. 08-5, 08-6, 08-7, 08-8, 08-10, 08-20, 08-24, 09-5, 09-6, 09-7, 09-14, 09-15, 09-16, 10-1, 10-2, 10-3, 10-6, and 10-7, nor does it affect the validity of prices and classifications established under those Decisions. Management may also continue to present to the Postal Regulatory Commission for its review, as appropriate, rate and classification changes to succeed the minimum and maximum non-published rates in Decision Nos. 10-2 and 10-6.

ORDER

In accordance with the foregoing Decision of the Governors, the prices set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Prices and classification changes established pursuant to this Decision will take effect after filing with and completion of review by the Postal Regulatory Commission.

Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivalent instruments (collectively, each "product") will be
The cost coverage for a product equals

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Express Mail, Parcel Return Service, Priority Mail International, Express Mail International, International Priority Airmail, International Surface Air Lift, Inbound Air Parcel Post, Inbound Surface Parcel Post, Inbound Direct Entry, and Inbound International Expedited Services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

Prices established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C.§ 3633(a)(3), which, as implemented by (39 C.F.R.§ 3015.7(c)) requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C.§ 3633(a)(1)).

CERTIFICATION OF GOVERNORS' VOTE IN THE GOVERNORS' DECISION NO. 11-6

I hereby certify that the Governors voted on adopting Governors' Decision No. 11-6, and that, consistent with 39 USC 3632(a), a majority of the Governors then holding office concurred in the Decision.

2510.7 Global Reseller Expedited Package Contracts

2510.7.1 Description

- a. Global Reseller Expedited Package Contracts provide discounted prices to a reseller for Global Express Guaranteed (GXG), Priority Mail Express International (PMEI), Priority Mail International (PMI), and Outbound Single-Piece First-Class Package International Service (FCPIS), and Priority Mail International Regional Rate Boxes (PMI RRB) for destinations serviced by GXG, PMEI, PMI, FCPIS, and PMI RRB. The reseller offers prices based on its contract to its customer (reseller's customers).
- b. Preparation requirements are the same as for all GXG, PMEI, PMI, and FCPIS shipments with the following exceptions:
 - The reseller's customers are required to use PC Postage from an authorized PC Postage vendor for payment of postage or use an authorized Meter Provider using devices and methods for data entry authorized by USPS.
 - The reseller's customers may be required to prepare specific shipments according to country specific requirements.
 - The reseller's customers may be required to tender shipments through limited acceptance channels.
 - Mail preparation requirements for PMI RRB are similar to those required for a PMI Medium Flat Rate Box shipment, except that the mailer must use a Priority Mail Regional Rate Box A, B, or C with the specified markings, subject to size and weight limitations specific to PMI RRB that are set forth in the applicable Global Reseller Expedited Package Contract.
- c. The reseller must be capable of either tendering at least 5,000 pieces on international mail to the Postal Service, or paying at least \$100,000.00 in international postage to the Postal Service
- d. For a reseller to qualify, the contract must cover its attributable costs.
- e. Indemnity for ordinary, uninsured parcels is included in the price of postage for PMI RRB based on the weight of the item. The indemnity amount for PMI RRB is determined by the formula in UPU Parcel Post Regulations Article RC 149.2.1. This information is available in the Parcel Post Manual at www.upu.int. The formula, converted into U.S. equivalents of pounds and dollars, is shown in the International Mail Manual. It is updated annually to reflect the current SDR exchange rate.

Statement of Supporting Justification

- I, Frank Cebello, Executive Director, Global Business Management, am sponsoring the Request that the Commission add Global Reseller Expedited Package (GREP) Contracts 4 filed in Docket Nos. MC2014-38 and CP2014-67 to the competitive products list for prices not of general applicability. The proposed revised Mail Classification Schedule (MCS) language for GREP Contracts describes the requirements for this type of contract. My statement supports the United States Postal Service's (Postal Service's) Request by providing the information required by each applicable subsection of 39 C.F.R. § 3020.32. I attest to the accuracy of the information contained herein.
- (a) Demonstrate why the change is in accordance with the policies and applicable criteria of the Act.

As demonstrated below, the change complies with the applicable statutory provisions.

(b) Explain why, as to market dominant products, the change is not inconsistent with each requirement of 39 U.S.C. § 3622(d), and that it advances the objectives of 39 U.S.C. § 3622(b), taking into account the factors of 39 U.S.C. § 3622(c).

Not applicable. The Postal Service is proposing that GREP Contracts 4 be added to the competitive products list. Other functionally equivalent contracts would be added to the list as price categories under the GREP Contracts 4 listing.

(c) Explain why, as to competitive products, the addition, deletion, or transfer will not result in the violation of any of the standards of 39 U.S.C. § 3633.

Governors' Decision No. 11-6 authorized Postal Service management to prepare, for any product within the Outbound International Competitive Agreement grouping, a product description, including text for inclusion in the MCS, and present such product description to the Commission. The product description for GREP Contracts 4 is set forth in Attachment 2B, which establishes the prices and classification for GREP Contracts 4 agreements.

Adding GREP Contracts 4 to the competitive product list will improve the Postal Service's competitive posture, while enabling the Commission to verify that each contract covers its attributable costs and that each contract makes a positive contribution to coverage of institutional costs. This contract, along with each contract that is functionally equivalent to this contract, will increase contribution toward the requisite 5.5 percent of the Postal Service's total institutional costs paid for by competitive products. Accordingly, no issue of subsidization of competitive products by market dominant products arises.

(d) Verify that the change does not classify as competitive a product over which the Postal Service exercises sufficient market power that it can, without risk of losing a significant level of business to other firms offering similar products: (1) set the price of such product substantially above costs, (2) raise prices significantly; (3) decrease quality; or (4) decrease output.

GREP Contracts 4 are for U.S.-based entities that seek a channel to offer discounted rates to their customers for Global Express Guaranteed, Priority Mail Express International, Priority Mail International, and/or First-Class Package International Service, as well as Priority Mail International Regional Rate Box

service for destinations served by Global Express Guaranteed, Priority Mail Express International, Priority Mail International, First-Class Package International Service, and/or Priority Mail Regional Rate Box under a GREP Contracts 4 agreement.

When negotiating GREP Contracts 4 agreements, the Postal Service's bargaining position is constrained by the existence of other providers of similar services. As such, the market precludes the Postal Service from taking unilateral action to increase prices or decrease service. The Postal Service may not decrease quality or output without risking the loss of business to large competitors that offer similar international delivery services. The relevant market also does not allow the Postal Service to raise prices or offer prices substantially above costs; rather, the contracts are premised on prices that provide sufficient incentive for customers to ship with the Postal Service rather than a competitor. If the Postal Service were to raise these prices, it risks losing these customers to a private competitor in the international shipping industry.

(e) Explain whether or not each product that is the subject of the request is covered by the postal monopoly as reserved to the Postal Service under 18 U.S.C. § 1696, subject to the exceptions set forth in 39 U.S.C. § 601.

As defined in the proposed revised Mail Classification Schedule language authorized by Governors' Decision No. 11-6, GREP Contracts 4 items consist of Global Express Guaranteed, Priority Mail Express International, Priority Mail International, First-Class Package International Service, and Priority Mail International Regional Rate Box items that fall outside the scope of the Private Express Statutes. The shipping of merchandise which is outside of the definition

of "letters" using Global Express Guaranteed, Priority Mail Express International, Priority Mail International, and/or Priority Mail International Regional Rate Boxes is not subject to the Private Express Statutes. Furthermore, any "letters" as defined by 39 C.F.R. § 310.1(a) that are inserted in such items would likely fall within the suspensions or exceptions to the Private Express Statutes. For instance, the rates at issue here exceed the scope of the reserved area in 39 U.S.C. § 601. In addition, First-Class Package International Service is outside the scope of letter monopoly under existing regulations as the letter monopoly was suspended in 1986 with respect to outbound international letters.¹

(f) Provide a description of the availability and nature of enterprises in the private sector engaged in the delivery of the product.

See part (d) above. Private consolidators, freight forwarders, and integrators also offer international shipping arrangements whereby they provide analogous delivery services under similar conditions.

(g) Provide any available information on the views of those who use the product on the appropriateness of the proposed modification.

As discussed in part (d) above, the customer for this GREP Contract 4 agreement is a business that markets Global Express Guaranteed, Priority Mail Express International, Priority Mail International, and/or First-Class Package International Service at discounted prices to its customers, especially small and medium-sized business, and is interested in marketing Priority Mail International Regional Rate Box. The fact that the customer executed the contract for this

service indicates that this customer finds this type of product to be preferable to similar products offered by the Postal Service's competitors. This customer is presumably aware that competitive services are provided by other entities.

However, no specific data are available to the Postal Service on GREP customer views regarding the regulatory classification of these contracts.

(h) Provide a description of the likely impact of the proposed modification on small business concerns.

The market for international delivery services comparable to the services offered under a GREP Contracts 4 agreement is highly competitive. Therefore, addition of GREP Contracts 4 will likely have little, if any, impact upon small business concerns. Large shipping companies, consolidators, and freight forwarders serve this market, particularly with respect to the type of customers represented by these GREP contracts; the Postal Service is unaware of any small business concerns that could offer comparable service for these volumes.

By offering GREP contracts, the Postal Service is giving small businesses an additional option for shipping articles internationally, beyond the services offered by competitors. Thus, the net impact on small businesses is positive, because of the absence of negative impact on small business competitors and the positive impact on the small businesses that will have these services available.

(i) Include such other information, data, and such statements of reasons and bases, as are necessary and appropriate to fully inform the Commission of the nature, scope, significance, and impact of the proposed modification.

The customer eligibility criteria contained in the proposed MCS language for GREP contracts are consistent with those proposed for the previously filed customized agreement product classifications. Resellers who are GREP customers meet capability requirements consisting of at least 5,000 pieces of international mail to the Postal Service or paying at least \$100,000 in international postage to the Postal Service. As with other customized agreements, each GREP contract must cover its attributable costs.
